

# ILLINOIS: Immunization Initiative

**Coalition Goal:** Increasing immunization rates and decreasing the incidence of disease across the lifespan

**Stakeholder Group Structure:** Regional—4 vaccination strategies (2 HPV—Chicago and Southern Illinois)

**Development Phase:** Actively meeting, not yet implementing strategies

**HPV Vaccination Prevalence—Female: 64.4%**

**HPV Vaccination Prevalence—Male: 44.7%**

## State Information & Resources:

[Illinois AHEC HPV Cancer & Prevention Profile](#)

## Types of Member Organizations

**Everthrive (Coalition Lead)**

**CDC**

**American Academy of Pediatrics**

**Illinois Academy of Family Physicians**

**Illinois Department of Public Health**

**Chicago Department of Public Health**

**Cook County Department of Public Health**

## Coalition Strategies and Activities

### Strategies

Chicago-based HPV Vaccine coalition focused on increasing vaccination rates

Working with Southern Seven Health Coalition and ACS in Southern Illinois looking at HPV and vaccination rates

### Activities

Meet at the CDPH Health with members to discuss strategies and coordinate efforts

Quarterly meetings in various locations to discuss strategies

and

## Proudest Accomplishments

HPV Conferences in Central and Southern Illinois. Really great turnout and a lot of engaged participation from attendees. They were shining examples of collaborative work between Everthrive, ACS, and partners.
