Our Mission

The National HPV Vaccination Roundtable is a coalition of over 70 national organizations working at the intersection of immunization and cancer prevention to raise HPV vaccination rates and prevent HPV cancer.

Our Vision

We have the power to make a lasting impact by increasing HPV vaccination rates in the U.S. as we move toward elimination of vaccine-preventable HPV cancers.

Our Values

The work of the HPV Roundtable creates connections and synergies between organizations, creating a forum for sharing information and resources while avoiding duplication of efforts.

- HPV vaccination is cancer prevention.
- We achieve more through collaboration and partnership.
- Every member organization has something to contribute.
- Evidence-based practice should guide all our work.
- We need creative solutions to close known gaps.
