Talking to Parents about Vaccines

Immunization Quality Improvement for Providers (IQIP) program

[<< Back to IQIP](#)

Many parents have questions about their children’s vaccines, and answering their questions can help parents feel confident in choosing to vaccinate their child according to the recommended immunization schedule. Materials to assist you in starting conversations with parents include:

Weaponized Health Communication: Twitter Bots and Russian Trolls Amplify the Vaccine Debate

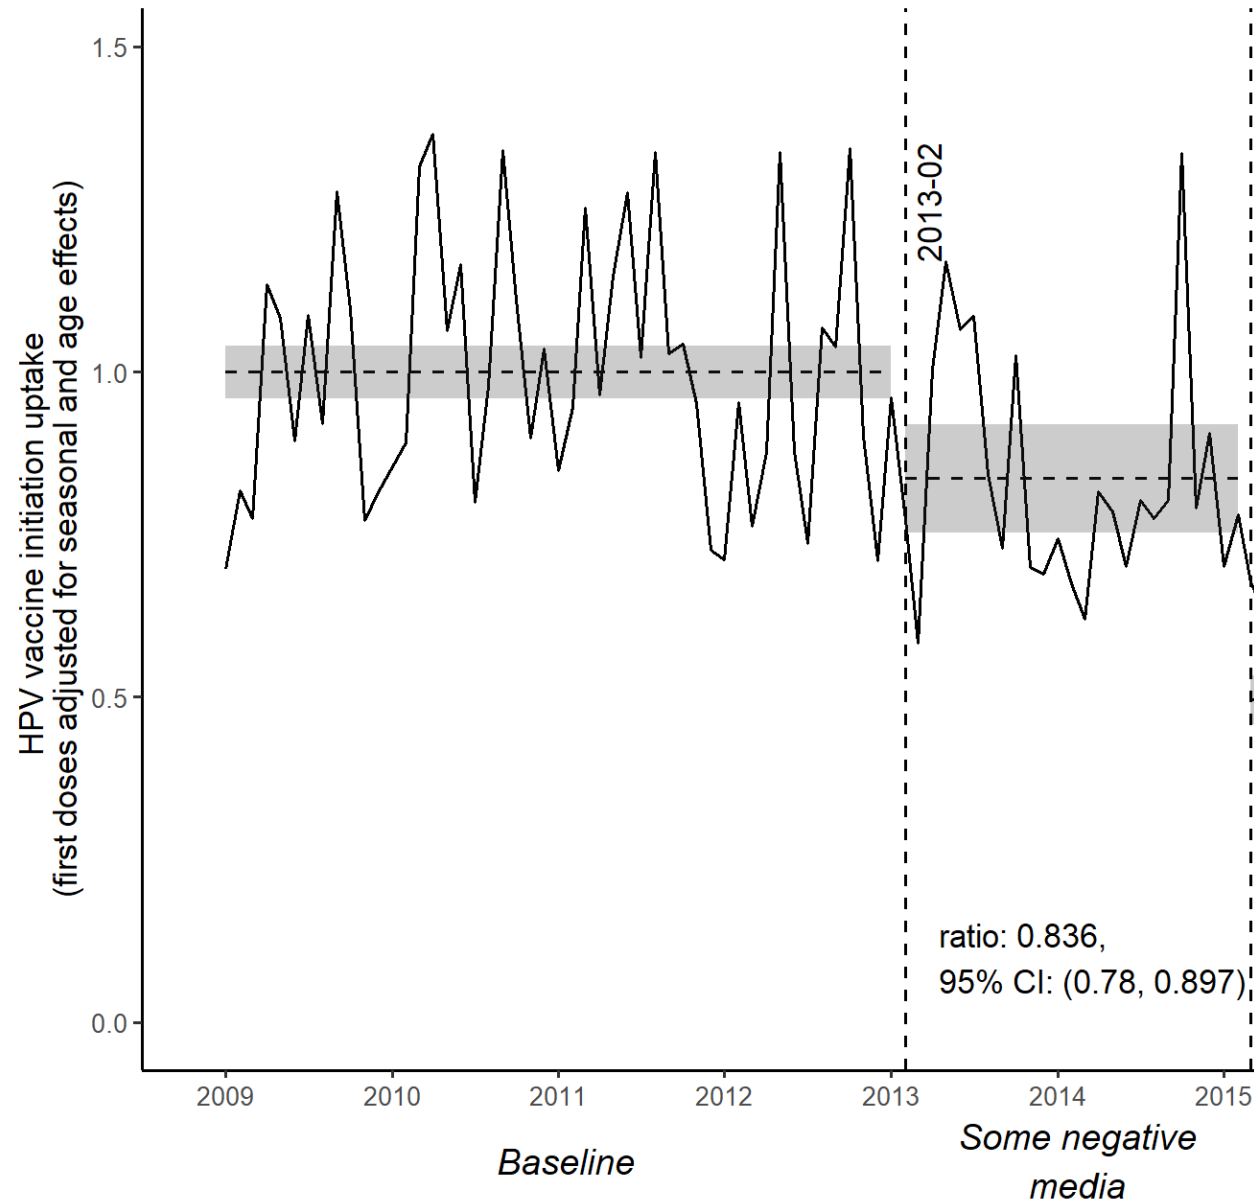

American researchers found that Russian trolls and Twitter bots are eroding public trust in vaccines. The two groups reportedly play complementary roles, with bots spreading antivaccine propaganda and trolls encouraging discord online.
