

2022  
**NATIONAL  
MEETING**

VAX LIKE A CHAMPION

National  
**HPV**  
Vaccination Roundtable

**2022 PROGRAM**

# AGENDA

12:50 pm ET

## LET'S PLAY BALL!

1:00 pm ET –  
1:25 pm ET

### SESSION 1 | THE FIRST PITCH: WELCOME & OPENING SESSION

#### Welcome to the Ballgame:

Rebecca Perkins, MD, MSc, Co-Chair, National HPV Vaccination Roundtable  
*American College of Obstetricians and Gynecologists (ACOG)*

Kristin Oliver, MD, MHS, Co-Chair, National HPV Vaccination Roundtable  
*American Academy of Pediatrics (AAP)*

#### MVP Opening Speaker

Chris Nolan, Cancer Survivor

1:25 pm ET –  
2:05 pm ET

### SESSION 2 | "KEEPING BOOK": HPV VACCINATION DATA PANEL

#### Moderator

Kristin Oliver, MD, MHS, Co-Chair, National HPV Vaccination Roundtable  
*American Academy of Pediatrics (AAP)*

#### Presentations and Speakers

##### NIS Teen Data

Shannon Stokley, DrPH  
*Centers for Disease Control and Prevention*

##### HPV Vaccine Effectiveness as Cancer Prevention

Julia Brotherton, B Med (Hons), MPH (Hons), Grad Dip App Epi, FAFPHM, PhD, GAICD  
*Australian Centre for the Prevention of Cervical Cancer*

##### Start HPV Vaccination at Age 9

Tamera Coyne-Beasley, MD, MPH  
*University of Alabama at Birmingham and Society for Adolescent Health and Medicine*

#### Session Two All-Star Panelists:

Shannon Stokley, DrPH, *Centers for Disease Control and Prevention*

Julia Brotherton, *Australian Centre for the Prevention of Cervical Cancer*

Tamera Coyne-Beasley, MD, MPH, *University of Alabama at Birmingham and SAHM*

2:05 pm ET –  
2:10 pm ET

2:10 pm ET –  
2:35 pm ET

2:35 pm ET –  
2:40 pm ET

2:40 pm ET –  
3:10 pm ET

3:10 pm ET –  
3:20 pm ET

3:20 pm ET –  
3:35 pm ET

3:35 pm ET –  
4:15 pm ET

## LOOK TO THE JUMBOTRON | National HPV Vaccination Roundtable: Did You Know?

### SESSION 3 | “THE BULLPEN”: INNOVATIONS QUICK UPDATE PANEL

#### Moderator

Rebecca Perkins, MD, MSc, Co-Chair, National HPV Vaccination Roundtable  
*American College of Obstetricians and Gynecologists (ACOG)*

#### Presentations and Speakers

##### ANCHOR Trial Data

Joel Palefsky, MD, FRCP(c)  
*University of California, San Francisco and International Anal Neoplasia Society*

##### Self-Collection

Vikrant Sahasrabudde, MBBS, MPH, DrPH  
*National Cancer Institute*

##### Therapeutic Vaccines

Mark Einstein, MD, MS  
*Rutgers New Jersey Medical School*

#### Session 3 All-Star Panelists:

Joel Palefsky, MD, FRCP(c), *University of California, San Francisco and IANS*  
Vikrant Sahasrabudde, MBBS, MPH, DrPH, *National Cancer Institute*  
Mark Einstein, MD, MS, *Rutgers New Jersey Medical School*

### TAKE ME OUT TO THE BALLGAME

### SESSION 4 | REWRITING THE PLAYBOOK: AGE AND HPV VACCINATION IMPACT

#### Moderator

Heather Brandt, PhD, *St. Jude Children’s Research Hospital*

#### Session 4 All-Star Panelists:

Robert A. Bednarczyk, PhD, *Emory University Rollins School of Public Health*  
Margot Savoy, MD, MPH, FAAFP, *American Academy of Family Physicians*  
Janet Siddiqui, MD, MBA, FAAP, ABIHM, *Johns Hopkins Community Physicians*

### BREAK: GRAB YOUR PEANUTS AND CRACKER JACKS

### SESSION 5 | CANCER SURVIVOR ACE

Eve McDavid, Cancer Survivor  
*Mission-Driven Tech*

### SESSION 6 | CHARGING THE MOUND: COVID IMPACT & INNOVATIONS

#### Moderator

Kristin Oliver, MD, MHS, Co-Chair, National HPV Vaccination Roundtable  
*American Academy of Pediatrics (AAP)*

#### Presentations and Speakers

##### Impact of COVID: What Have We Learned

Peter Jay Hotez, MD, PhD  
*Baylor College of Medicine*

##### The Impact of COVID on Vaccine Confidence

Erica DeWald  
*Vaccinate Your Family*

4:15 pm ET -  
4:20 pm ET

4:20 pm ET -  
4:55 pm ET

4:55pm ET –  
5:00pm ET

**Clinic Best Practices**

Robert Tracy, MD  
*St. Elizabeth Physicians*

**Session 6 All-Star Panelists:**

Peter Jay Hotez, MD, PhD, *Baylor College of Medicine*  
Erica DeWald, *Vaccinate Your Family*  
Robert Tracy, MD, *St. Elizabeth Physicians*

**7th INNING STRETCH**

**SESSION 7 | EXPAND THE STRIKE ZONE: GLOBAL HPV UPDATE & BEST PRACTICES**

**Moderator**

Rebecca Perkins, MD, MSc, Co-Chair, National HPV Vaccination Roundtable  
*American College of Obstetricians and Gynecologists (ACOG)*

**Presentations and Speakers**

**Impact of COVID-19 Pandemic on Global HPV Vaccine Program Performance**

Paul Bloem, MBA, MSc  
*World Health Organization, Geneva*

**India Best Practices**

Sutapa Biswas  
*Cancer Foundation of India*

**Session 7 All-Star Panelists:**

Hiroki Akaba, MD, *World Health Organization*  
Lori Agin Cooper, *American Cancer Society*

**SESSION 8 | GRAND SLAM CLOSING**

**Good Game and Cool Down:**

Rebecca Perkins, MD, MSc, Co-Chair, National HPV Vaccination Roundtable  
*American College of Obstetricians and Gynecologists (ACOG)*

Kristin Oliver, MD, MHS, Co-Chair, National HPV Vaccination Roundtable  
*American Academy of Pediatrics (AAP)*

# GETTING THE MOST

## *from Your HPV Vaccination Roundtable Meeting*

### Training Camp

#### *Before the Meeting*

##### **Optimize Your Technology for the Conference**

###### **Use the Best Internet Connection You Can**

- Using a wired internet connection is best because it is the most resistant to failure.
- Using a WiFi connection is more reliable than a cellular connection.

###### **Close Applications to Free Up Computing Power**

- Virtual meetings can demand significant memory and processing power from your computer.
- Close unused applications during the session to free up your computing power (e.g., Word, Excel, Outlook, VPN and especially weather apps and other browser tabs.)

###### **Choose Your Browser Carefully**

- Chrome is recommended to get the most functionality from the conference platform.

##### **Become Familiar with the Conference Site and Agenda**

Familiarize yourself with the conference website and features.

Click on the conference link in your conference email and enter your first and last names. The conference attendee hub will be available starting September 22nd.

- Enter the email address that you used to register for the conference.
- Enter your verification code –you will receive a verification code via phone and email.
- Logging in will grant conference site access for 24 hours.
- When the time expires, simply repeat the steps above.

---

### Gametime!

#### *During the Meeting*

##### **Get Ready to Play Ball with a Warm-Up Track:**

We have a playlist for you to enjoy and get into the “zone” for the big game. Playlist: [2022 Nation HPV Roundtable Annual Mtg](#)

##### **Participate in Sessions and Win a Prize**

Step up to the plate and join the HPV Roundtable “Vax Like a Champion” Team Participation Challenge.

As an important player of the HPV-all-star team, your engagement and participation during the HPV Roundtable National Meeting can add up to an incredibly positive score that will help you win baseball merchandise. You can earn virtual “game points” for completing the tasks below. At the end of the meeting, the top three achievers in points at the end of the meeting will win a prize.

### **Leadoff Hitter (Early Bird):**

- Log in to Attendee Hub – 20 points
- Event Registration – 50 points

### **Perfect Game Sessions: (Engage/interact with your sessions. The more you put into the game, the more you will get out of them)**

- Add to calendar – 10 points
- Join virtual session – 20 points
- Engage in session chat – 20 points

### **Home Run:**

- Share one idea of how you plan to incorporate “Start at Age 9” on the discussion board – 50 points
- Complete and submit your HPVVRT “Vax Like a Champion” evaluation survey – 50 points

### **Network with Other Attendees**

On the Attendee Hub, click your “Profile”, which is found in the upper right-hand corner of the homepage. This will allow you to enable your “Visibility” on the Hub. Other participants will then know that you are attending the conference and can send you private messages. Reach out to old colleagues or connect with new ones.

### **Engage on Social Media**

- Follow us on Social Media (click the icon to be linked to the HPV Vaccination Roundtable page):

- Post using #HPVRT22. In this way you can help educate and involve others within the conference.
- Tag @HPVRoundtable on any social media posts.

### **Explore and Engage in the Event Virtual Space**

Take advantage of the Attendee Hub’s functionality

- Use the Q&A feature to ask questions.
- Use the Chat feature to comment and interact.
- Learn about the speakers from the player cards in the program and information in the Attendee Hub.

---

## **Post-Game Conference**

### *After the Meeting*

#### **Follow Up on the Meeting**

- Complete the evaluation survey to help us plan future meetings: [Survey Link](#).
- Listen to replays of the conference sessions. Session recordings will be available on the conference website and will be available there for 30 days. Click on “Schedule” at the top to find the “On Demand” recordings. After 30 days, the recordings can be found on [www.hpvroundtable.org](http://www.hpvroundtable.org).
- Follow up with the individuals you contacted through the Attendee Hub networking platform.
- Engage in the HPV Vaccination Roundtable priorities and utilize the resources: [www.hpvroundtable.org](http://www.hpvroundtable.org).

# National HPV Vaccination Roundtable SPEAKER BIOS

**Dr. Kristin Oliver** is an Associate Professor in the Departments Environmental Medicine & Public Health and Pediatrics at the Icahn School of Medicine at Mount Sinai and the current Co-Chair of the National HPV Vaccination Roundtable. Dr. Oliver is a pediatrician and public health specialist. Dr. Oliver's scholarly and research interests focus on quality improvement for vaccination and vaccine hesitancy. She represents the American Academy of Pediatrics on the National HPV Vaccination Roundtable. She is the Program Director for the General Preventive Medicine Residency at Mount Sinai. Dr. Oliver has extensive experience working in public health and policy agencies. She previously served as a health care analyst for GAO in Washington DC, and is currently a Medical Specialist for the New York City Department of Health and Mental Hygiene. Dr. Oliver holds a BA from McGill University, and an MHS in Health Policy from the Johns Hopkins Bloomberg School of Public Health. She received her MD from the Mount Sinai School of Medicine and completed residencies in Pediatrics and Preventive Medicine at the Mount Sinai Hospital.

**Rebecca B. Perkins, MD, MSc** Co-Chair, National HPV Vaccination Roundtable/ American College of Obstetricians and Gynecologists (ACOG) Associate Professor, Obstetrics and Gynecology

Dr. Perkins area of research is cervical cancer prevention in underserved women. My current work focuses on HPV vaccination in females and males, as well as the impact of new screening guidelines on cervical dysplasia/cancer outcomes.

---

**Christopher Nolan** grew up in Clear Lake City, Texas in the shadow of the Johnson Space Center. Houston is also where he met his wife, Robin, on a blind date. After the birth of their three sons, they moved to North Richland Hills, Texas.

For close to thirty years, Christopher has written software for the controls and automation industry.

These days you will find him running, hunting or fishing, or (most likely) spoiling his granddaughters.

---

**Dr. Shannon Stokley** has over 20 years of experience conducting health services research to improve vaccination coverage for children, adolescents and adults. She joined CDC in 1996 as an epidemiologist and from 2006-2013 served as the lead for the Adolescent Vaccination Team. Currently, she serves as Deputy Director of Science Implementation for the Immunization Services Division within the National Center for Immunization and Respiratory Diseases at CDC.

**Professor Julia Brotherton** is a public health physician and Director of Population Health at the Australian Centre for the Prevention of Cervical Cancer. She is also Professor of Cancer Prevention Policy and Implementation in the Evaluation and Implementation Science Unit, Centre for Health Policy, Melbourne School of Population and Global Health, University of Melbourne, a Professorial Fellow at the National Centre for Immunisation Research and Surveillance (Sydney) and Visiting Professor, University of Malaya. Julia's world first research, finding early impact of HPV vaccine on HPV prevalence and cervical pre-cancer, supported national introductions of HPV vaccine. She has over 240 publications and is a member of the WHO Director General's Expert Advisory Group on Cervical Cancer Elimination, CHIC's global HPV Vaccine Council, and an advisor to the Single Dose HPV Vaccination Evaluation Consortium.

For over fifteen years Julia has been involved in research and policy development informing the implementation and evaluation of HPV vaccination and cervical screening programs. In her role as Medical Director of the former National HPV Vaccination Program Register and of Victoria and South Australia's Cervical Screening Registers, she gained considerable operational public health expertise in cervical cancer prevention and in policy relevant and implementation research in Australia and internationally. She is an editor for Sexual Health and reviews for >50 journals and funding bodies. Julia also cochairs the SUCCESS ECHO program, an Indo Pacific region community of practice focused on WHO's cervical cancer elimination strategy.

Julia's current work is focused on achieving equity in the delivery and outcomes of strategies for scale up to support the WHO call to eliminate cervical cancer as a public health problem. She is a chief investigator in the NHMRC Centre of Research Excellence in Cervical Cancer Control and the Centre for Research Excellence in Targeted Approaches to Improve Cancer Services for Aboriginal and Torres Strait Islander Australians.

**Dr. Tamera Coyne-Beasley** is the Derrol Dawkins Endowed Chair in Adolescent Medicine, Division Director for Adolescent Medicine, Vice Chair of Pediatrics for Community Engagement, and Professor of Pediatrics and Internal Medicine at the University of Alabama at Birmingham and Children's of Alabama. Her areas of expertise and training include adolescent medicine, preventive medicine, health services research, medical management, epidemiology and public health. Her research, academic, community engagement, and policy and program development focus on adolescent health and well-being, sexual and reproductive health, risk behaviors and resiliency, global health, immunizations, health disparities and equity.

Tamera has served in numerous leadership positions in several organizations and committees. Dr. Coyne-Beasley was appointed by Secretary Kathleen Sebelius, Former United States Secretary of Health and Human Services (HHS) to the Advisory Committee on Immunization Practices (ACIP) and appointed to be the chair of the Adult Immunization workgroup. As an HPV vaccine researcher, she also served on the ACIP HPV workgroup for 10 years. Dr. Coyne-Beasley is currently on the Board of Directors of the National Foundation of Infectious Diseases and serves on the External Scientific Advisory Boards for various vaccines including COVID-19 vaccines.

Dr. Coyne-Beasley is a Past-President of the Society for Adolescent Health and Medicine (SAHM). As SAHM president, she tackled sensitive national and international issues that arose on race and racism and its impact on the health and well-being of children and adolescents. She is also on SAHM's vaccine committee and a coauthor on the organization's position statement on COVID-19.

**Joel Palefsky, M.D., C.M., F.R.C.P.(C).** Professor of Medicine and Infectious Diseases at the University of California San Francisco School of Medicine. He trained in medicine and Internal Medicine at McGill University, and in Infectious Diseases at Stanford University. He is an internationally recognized expert on the molecular biology, treatment, pathogenesis and natural history of anogenital human papillomavirus infections, particularly in the setting of HIV infection. He is the founder and director of the world's first clinic devoted to prevention of anal cancer, the Anal Neoplasia Clinic Research and Education Center at the UCSF Cancer Center. He is the vice-chair of the National Cancer Institute (NCI)-supported AIDS Malignancy Consortium. He is the chair of the Anal Cancer /HSIL Outcomes Research (ANCHOR) Study, a national multi-site NIH study designed to determine whether treatment of anal cancer precursor lesions prevents the development of anal cancer and to identify biomarkers of progression. He is founder and past president of the International Anal Neoplasia Society and is past president of the International Papillomavirus Society. He is the founder and chairperson of the IPVS International HPV Awareness Campaign.

**Dr. Vikrant Sahasrabudde** is Deputy Chief of the Breast and Gynecologic Cancer Research Group and Program Director in the Division of Cancer Prevention at the National Cancer Institute (NCI) overseeing prevention clinical research on cervical cancer and other human papillomavirus (HPV)-related cancers. Dr. Sahasrabudde provides scientific direction and strategic guidance for efforts on optimization of clinic-based and population-based precision prevention strategies for cervical cancer and other HPV-related cancers and building the evidence base for their implementation in the United States and globally.

**Mark Einstein, MD, MS, FACS, FACOG**, is a Professor and Chair of Obstetrics, Gynecology, and Women's Health at Rutgers New Jersey Medical School. Dr. Einstein is a Gynecologic Oncologist who is an expert at identification and treatment of gynecologic malignancies. His primary research interests focus on the pathogenesis, therapy, and prevention of the lower anogenital tract and gynecologic cancers. He leads numerous clinical efforts identifying unique targets and biomarkers for clinical risk of malignant transformation. He is also testing many novel drugs for cancer treatment.

**Heather M. Brandt, PhD** is director of the HPV Cancer Prevention Program at St. Jude Children's Research Hospital and co-associate director for outreach in the St. Jude Comprehensive Cancer Center. She also serves as a full member in the department of epidemiology and cancer control. She is a faculty affiliate in the University of Memphis School of Public Health and University of South Carolina Arnold School of Public Health. As a social and behavioral scientist, her research interests focus on cancer-related health disparities in cancer prevention and control and specifically on working with allies and partners to effectively use what we know works to increase HPV vaccination.

**Margot L. Savoy, MD, MPH, FAAFP** serves as senior vice president for education, inclusiveness, and physician well-being for the American Academy of Family Physicians (AAFP). Savoy continues to serve as associate professor, Family & Community Medicine and Urban Bioethics & Population Health at Lewis Katz School of Medicine, Temple University in Philadelphia as well as adjunct associate professor at Maurice H. Kornberg School of Dentistry. Before joining the AAFP, Savoy served as the chair of the Department of Family and Community Medicine at the Lewis Katz School of Medicine at Temple University and chief quality officer for Temple Faculty Physicians, Inc. She also was an attending physician at Temple University Hospital and ChristianaCare. She also served as medical director for the Delaware Division of Youth Rehabilitative Services and as attending physician at the Pennsylvania Department of Health's STD clinic. She was also medical director and assistant program director at the Crozer Keystone Family Medicine Residency Program. A member of the AAFP since 2005, Savoy served as a Delaware delegate and alternate delegate to the AAFP Congress of Delegates. She was a member and chair of the Commission on Health of the Public and Science, including on the subcommittee on Health Equity. Savoy also acted as co-convenor of the National Conference of Constituency Leaders. Savoy earned her Bachelor of Science degree in neurobiology and physiology from the University of Maryland in College Park. She earned her medical degree from the University of Maryland School of Medicine in Baltimore and Master of Public Health at the University of North Carolina at Chapel Hill. She is board certified by the American Board of Family Medicine and has the AAFP Degree of Fellow, an earned degree awarded to family physicians for distinguished service and continuing medical education.

---

**Dr. Bednarczyk** is an Assistant Professor of Global Health and Epidemiology at the Emory University Rollins School of Public Health. He is also a faculty member of the Emory Vaccine Center and the Winship Cancer Institute Cancer Prevention and Control Program. He received his PhD from the Department of Epidemiology and Biostatistics at the SUNY University at Albany School of Public Health in 2010. He has been researching prevention of HPV-related cancers through vaccination and increased access to screening, both in the US and internationally, since 2007. His research and policy advocacy is rooted in three years of service as Assistant to Chair for the National Vaccine Advisory Committee, where he contributed to the work of the committee and working groups addressing vaccine safety, the 2009 H1N1 pandemic influenza response, adult immunization uptake, and the 2010 update of the National Vaccine Plan. He has published 85 peer-reviewed manuscripts, primarily on infectious disease and vaccine-related topics, in journals including the Journal of the American Medical Association, New England Journal of Medicine, Pediatrics, Clinical Infectious Diseases, Journal of Infectious Diseases, and Vaccine.

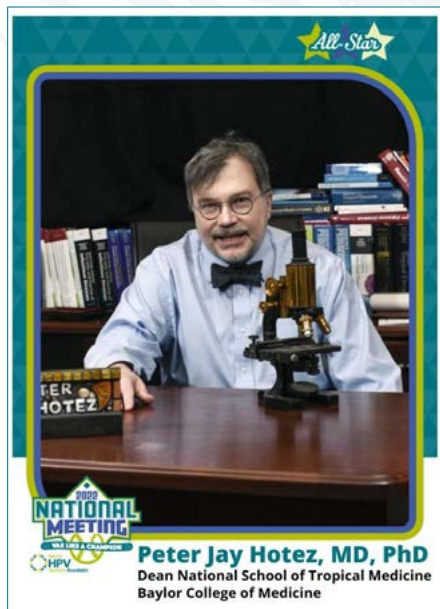

---

**Dr. Janet Siddiqui** is a Pediatrician and Office Medical Director for Johns Hopkins Community Physicians. She has participated in several American Academy of Pediatrics (AAP) Quality Improvement programs, including Improving Immunization Rate for Adolescents and she also recently reordered an AAP/RedBook webinar on Improving HPV Vaccination Rates.

**Eve McDavid** is the CEO and Co-Founder of Mission-Driven Tech™, a new women's health venture in collaboration with Weill Cornell Medicine dedicated to the transformation of gynecologic cancer care with modern technology.

Eve is a Stage IIB Cervical Cancer survivor and former long-time Google Executive who uses her expertise in tech, business & media to fight for change in women's health. She is a passionate advocate for women's healthcare access, literacy and equity and has been named an expert in survivorship and innovation by the World Health Organization. Her story has been featured in *The Washington Post*, *Insider*, *Thrive Global* and *ABC-7*. For more information, please visit [www.EveMcDavid.com](http://www.EveMcDavid.com).

**Peter J. Hotez, M.D., Ph.D.** is Dean of the National School of Tropical Medicine and Professor of Pediatrics and Molecular Virology & Microbiology at Baylor College of Medicine where he is also the Co-director of the Texas Children's Center for Vaccine Development (CVD) and Texas Children's Hospital Endowed Chair of Tropical Pediatrics. He is also University Professor at Baylor University, Fellow in Disease and Poverty at the James A Baker III Institute for Public Policy, Senior Fellow at the Scowcroft Institute of International Affairs at Texas A&M University, Faculty Fellow with the Hagler Institute for Advanced Studies at Texas A&M University, and Health Policy Scholar in the Baylor Center for Medical Ethics and Health Policy.

Dr. Hotez is an internationally recognized physician-scientist in neglected tropical diseases and vaccine development and is a champion regarding access to vaccines. He has authored more than 600 original papers and is the author of five single-author books, including *Forgotten People*, *Forgotten Diseases*; *Blue Marble Health: An Innovative Plan to Fight Diseases of the Poor amid Wealth*; *Vaccines Did Not Cause Rachel's Autism* and *Preventing the Next Pandemic: Vaccine Diplomacy in a Time of Anti-science*. In 2014 - 2016, he served in the Obama Administration as US Envoy, focusing on vaccine diplomacy initiatives between the US Government and Middle Eastern and North African countries. In 2018, he was appointed by the US State Department to serve on the Board of Governors for the US Israel Binational Science Foundation. As a vaccine scientist and autism parent, he has led national efforts to defend vaccines and to serve as an ardent champion of vaccines against "antivaxxers." He obtained his undergraduate degree in molecular biophysics from Yale University in 1980 (phi beta kappa), Ph.D. degree in biochemistry from Rockefeller University in 1986, and an M.D. from Weil Cornell Medical College in 1987.

**Erica DeWald** is Chief Communication Officer of Vaccinate Your Family. She has led the organization's efforts at both the state and federal level to educate legislators, media, and the public about the value of vaccines.

Erica specializes in the development and implementation of strategic initiatives to advance infectious disease issues. She has worked to build a national network of vaccine advocates to remind the public of the importance of timely immunizations, assisting with the development, launch and promotion of national campaigns including VYF's Vaccinate Your Baby and Vaccinate Your Family campaigns. She also co-chaired the workgroup on patient education for the Centers for Disease Control and Prevention's National Adult and Influenza Immunization Summit during its first two years.

Most recently, Erica has supported VYF's efforts to ensure equitable access to vaccines. She has participated in the COVID Collaborative, Made to Save coalition, HHS' Vaccine Community Corps, as well as contributed to the Ad Council's "It's Up to You" campaign. Erica leads ongoing initiatives to maintain the momentum of these partnerships into the need for routine immunizations, including through VYF's Vaccination Collaborative and VYF's partnership with NCNW on Good Health WINs (Women's Immunization Networks).

Prior to her joining VYF, Erica was the principal of a science communications firm, Coffeehouse Communications LLC. She also was a director at APCO Worldwide, a public affairs firm, where she spent over a decade providing strategic counsel to clients concerning alliance development and issue management. She managed a variety of national public affairs and corporate communication campaigns. Erica's past work also includes both government and nonprofit organizations in the areas of education and domestic abuse.

She graduated magna cum laude from Boston University with a Bachelor of Science in communication, specializing in public relations.

**Dr. Rob Tracy** is a family medicine provider with over 31 years of medical practice with St. Elizabeth Physicians, a 700+ provider multi-specialty medical group in northern Kentucky and southeast Indiana. He presently serves as Assistant Director of the St. Elizabeth Family Medicine Residency Program, Clinical Director of Quality Transformation for St. Elizabeth Physicians, and Chair of the St. Elizabeth Physicians Quality Committee. Dr. Tracy has held other leadership roles in his career including Chairman of the Board for St. Elizabeth Physicians from 2010 to 2012, Chair of the St. Elizabeth Physicians Compensation Committee, and Practice Leader of his primary care practice for over 12 years.

Dr. Tracy hails from Cleveland, Ohio and completed his undergraduate training at Clemson University in 1984. He is a 1988 graduate of the Wright State University Boonshoft School of Medicine in Dayton, Ohio as well as a 1991 graduate of the St. Elizabeth Family Practice residency.

Dr. Tracy has received several distinctions throughout his career including the St. Elizabeth Family Practice Residency Faculty Teaching Award in 2021, finalist for the Healthcare Hero Award in 2013, multiple nominations for Top Doctor in Cincinnati for Family Medicine from 2011-2022, and the St. Elizabeth Family Practice Residency 3rd-Year Resident Teaching Award in 1991. Additionally, Dr. Tracy is an accomplished presenter on topics such as Colorectal Cancer Screening, Adolescent Immunizations, and Annual Wellness Visits via webinars, panels, interviews, and national AMGA meetings.

Dr. Tracy is married to Dr. Randi Callahan, a practicing family physician. He is father to a daughter who is a practicing family physician in San Antonio, Texas and son completing a PhD in Environmental Science at the University of Cincinnati. Finally, he is a proud grandfather of one.

**Mr. Paul Bloem** is the HPV vaccine lead in the WHO vaccination department IVB in Geneva. He is a public health practitioner with an MBA in Health Systems Management who started his career in public health research in his native Netherlands. After several years in Central American countries working for UNICEF, he joined the World Health Organization in 1995, working on adolescent health and development, specializing on the quality of health care for adolescents. In 2012 he joined the IVB Department to dedicate himself to HPV vaccination and integration with adolescent health. He currently is the HPV vaccine lead in the WHO vaccination department IVB in Geneva, supporting norms and standards setting on HPV vaccination through SAGE, developing technical guidance materials and providing technical support for the introduction of the HPV vaccine in low and middle income countries. As a member of GAVI HPV Subteam he advises GAVI on the implementation of its HPV programme in low income countries. Together with colleagues in the relevant WHO departments he promotes the implementation of the Global Strategy on Cervical Cancer Elimination.

**Sutapa Biswas** received a post-graduate in Mass Communication from Jadavpur University, Kolkata, and has been a documentary filmmaker with St. Xavier's College (UGC) since 1993. A personal loss to cancer in 2001 changed the trajectory of her life and she went on to create the Cancer Foundation of India with other eminent professionals in 2002. She is the Co-founder and Executive Director of CFI and developed the Cancer Communications component through CFI public health programmes.

Sutapa specializes in Health Communication and has been working in the area of cancer public health with special emphasis on tobacco-related cancers, breast cancer, and cervical cancer. Her innovations in communication approaches and advocacy skills at both policy and community levels have been highlights of her career.

In the 20 years her work has been widely acclaimed both nationally and internationally. She has published work in several journals and has an invited speaker in conferences. She has received prestigious visiting fellowships from the American Cancer Society, International Agency for Research on Cancer (WHO), Cancer Council Australia (UICC), the European Union, and the Johns Hopkins Bloomberg School of Public Health, USA.

Sutapa is a public speaker and has been a guest lecturer on Communication studies at Calcutta University (St. Xavier's College and Loreto College) for over 15 years.

---

**Dr. Hiroki Akaba** is a medical doctor, graduated from Tohoku University, Japan, in 2012. He worked as an obstetrics and gynecologist in National Center for Global Health and Medicine (NCGM), Tokyo, and became a certified obstetrics and gynecologist in 2018, as well as engaging in the several health projects in low- and middle-income countries in NCGM. He joined a mission in South Sudan as an obstetrician expert of Médecins Sans Frontières in 2019, followed by graduating from MSc. Health Policy in London School of Hygiene and Tropical Medicine. Since 2021, he works as a Technical Officer, IVB Department in the WHO-HQ, supporting norms and standards setting on HPV vaccination and providing technical support to introduce HPV vaccine or improve coverage in member states.

---

**Lori Agin** is a Global Cancer Prevention Manager at the American Cancer Society (ACS). In this role she is collaborating with ACS partners in India and Kenya on the creation of an online toolkit with evidence-based action guides and resources designed to help stakeholders such as medical societies and civil organizations in low and middle income countries increase the demand and update of HPV vaccination rates. Ms. Agin is a senior communications and integrated marketing strategist and content creator with more than 25 years of experience designing multi-faceted awareness, education, and community engagement and brand positioning campaigns and programs in healthcare and education.

In a previous role at ACS, Ms. Agin served as Director of Public Relations and Communications, with the American Cancer Society, where she designed and managed communications programs on HPV vaccination of teens, global cancer issues and childhood cancer. In her work with American Institutes for Research she led the development, implementation, and management of award winning national public health communication and marketing programs on the behalf of the Centers for Disease Control and Prevention, the Health Services Research Agency, and the Agency for Health Research and Quality.

Ms. Agin holds a B.A. from Emory University.

# MEET THE HOME TEAM

## *About the National HPV Vaccination Roundtable*

**The National HPV Vaccination Roundtable is a coalition of 70 organizations working at the intersection of immunization and cancer prevention.**

We were founded in 2014 by the American Cancer Society (ACS) and the Centers for Disease Control and Prevention (CDC). Our funding is provided by the CDC and ACS.

### **Our mission**

The collective mission of our organizations is to raise HPV vaccination rates and prevent HPV cancers in the United States.

### **Our vision**

We see a future where cervical cancers can be nearly eliminated in the U.S., sparing millions of women and families unnecessary pain, stress, and financial burden. We believe that by working together over the long-term, we can move towards ending vaccine-preventable HPV cancers as a public health problem.

# MEET THE STEERING COMMITTEE TEAM

**Dr. Kristin Oliver** is an Associate Professor in the Departments Environmental Medicine & Public Health and Pediatrics at the Icahn School of Medicine at Mount Sinai and the current Co-Chair of the National HPV Vaccination Roundtable. Dr. Oliver is a pediatrician and public health specialist. Dr. Oliver's scholarly and research interests focus on quality improvement for vaccination and vaccine hesitancy. She represents the American Academy of Pediatrics on the National HPV Vaccination Roundtable. She is the Program Director for the General Preventive Medicine Residency at Mount Sinai. Dr. Oliver has extensive experience working in public health and policy agencies. She previously served as a health care analyst for GAO in Washington DC, and is currently a Medical Specialist for the New York City Department of Health and Mental Hygiene. Dr. Oliver holds a BA from McGill University, and an MHS in Health Policy from the Johns Hopkins Bloomberg School of Public Health. She received her MD from the Mount Sinai School of Medicine and completed residencies in Pediatrics and Preventive Medicine at the Mount Sinai Hospital.

**Rebecca B. Perkins, MD, MSc** Co-Chair, National HPV Vaccination Roundtable/ American College of Obstetricians and Gynecologists (ACOG) Associate Professor, Obstetrics and Gynecology

Dr. Perkins area of research is cervical cancer prevention in underserved women. My current work focuses on HPV vaccination in females and males, as well as the impact of new screening guidelines on cervical dysplasia/cancer outcomes.

---

**Debbie Saslow, Ph.D.**, is the Managing Director of HPV & GYN Cancers at the American Cancer Society and the current Vice Chair of the National HPV Vaccination Roundtable. Since 1997, Dr. Saslow has served as the ACS subject matter expert for HPV-related cancers including cervical cancer. She provides strategic direction and evidenced-based guidance to the organization on the implementation of HPV cancer-related activities and is responsible for developing and updating ACS guidelines for cervical cancer screening and for HPV vaccination. Dr. Saslow also has served as the Vice-Chair of the National HPV Vaccination Roundtable since its inception in 2014 and is leading the launch of the National Roundtable on Cervical Cancer.

---

**Dr. Noel Brewer** is the Gillings Distinguished Professor of Public Health at the University of North Carolina in the Department of Health Behavior at the Gillings School of Global Public Health. Dr. Brewer was the inaugural chair of the National HPV Vaccination Roundtable. Brewer has a PhD in health psychology from Rutgers University and has been recognized as a Fellow of the Association for Psychological Science. His research explores why people engage in vaccination and other health behaviors that prevent cancer. Apart from his academic position, he serves on the Lancet Commission on Vaccine Refusal, Acceptance, and Demand and has advised the WHO and CDC on vaccination. He has also advised the President's Cancer Panel under two presidents and the National Vaccine Advisory Committee. The Announcement Approach Training developed by Dr. Brewer and colleagues, teaches health care providers to communicate more effectively about HPV vaccination and other vaccines for adolescents. Over 1,700 providers and clinical staff in 17 states have received the training to date. The National Cancer Institute designated it as a Research-Tested Intervention Program, and the CDC and American Academy of Pediatrics now recommend use of presumptive announcements when recommending HPV vaccine. Free materials are available at [hpvIQ.org](http://hpvIQ.org).

**Tamika Felder**  
Steering Committee Member  
Cervivor

---

**Tamika Felder** is a cancer survivor, award-winning women’s health advocate, and Chief Visionary at Cervivor - a nonprofit dedicated to cervical cancer advocacy and support. Tamika also has a mission to eradicate cancer and shine a spotlight on the patient voice in healthcare.

Named a “Cancer Rebel” by Newsweek, Tamika is a highly sought-after speaker on cervical cancer advocacy, cancer prevention, HPV education, and living life with purpose. She’s shared her story on Presidential Panels convened by the White House, trained thousands of ambassadors using her signature patient advocacy framework, and traveled internationally to share her experiences with women around the world. Tamika currently serves on the steering committee of the National HPV Vaccination Roundtable. A member of Family Reach Cancer Equity Initiative National Strategic Council, she is regularly tapped by leading organizations and Fortune 500 companies around the globe to share her story and expertise.

An award-winning television producer and host, Tamika is a captivating personality; as well as an engaging and talented storyteller. Her work has led to her being featured in Bravo’s Real Housewives of Beverly Hills franchise; as well as a profile feature in the award-winning documentary Someone You Love: The HPV Epidemic.

**Judy Klein**  
Steering Committee Member  
Unity Consortium

---

**Judy Klein**, President, Unity Consortium. Judy is President and Founder of Unity® Consortium, bringing together organizations that share a desire to improve immunization coverage for adolescents and young adults (AYA). Judy has deep expertise in healthcare and immunizations and her passion lies in helping individuals to lead healthy lives by focusing on preventive healthcare and immunizations. Judy has leadership roles with organizations that advance these values including the National HPV Roundtable Steering Committee and the National AYA Information Center Advisory Committee. Judy was recently selected as the winner of the 2021 Vaughn Rickert Vaccine Research Award by the Society for Adolescent Health and Medicine and has published studies about improving immunization coverage for adolescents.

**Sarah Kobrin, PhD, MPH** is best known for her work in HPV vaccine uptake, use of health behavior theory, cancer screening, and promoting HDRP's focus on the effects of organizational characteristics on cancer prevention and control. She is currently Chief of the Health Systems & Interventions Research Branch at the National Cancer Institute, a position she has held since 2015. Under her leadership, the scientists, fellows and staff in the branch promote research improve cancer care delivery by accounting for multilevel influences, the role of Information Technology, and the performance of healthcare teams. Dr. Kobrin manages and conducts health systems and behavioral research related to uptake of the HPV vaccine, shared medical decision making, cancer screening, use of theory in applied research, and behavioral and theoretical measurement.

\*Dr. Kobrin will be rotating off the Steering Committee at the end of 2022.

**Cherie-Ann Nathan, MD, FACS** is the Jack Pou Endowed Professor and Chair of the Department of Otolaryngology/Head and Neck Surgery at LSU-Health in Shreveport. She is also Director of Head and Neck Oncologic Surgery and Research at the Feist-Weiller Cancer Center and Chair for the ASTRO-ASCO-AHNS Multidisciplinary meeting and President of the Association of Academic Depts. of Otolaryngology/Head and Neck Surgery. Dr. Nathan is the immediate Past-President of the American Head and Neck Society. Apart from her role as Steering Committee Member on the National HPV Vaccination Roundtable, she serves on other national committees including but not limited to, the Board of Directors for the American Board of Otolaryngology/HNS, American Academy of Otolaryngology/HNS, American College of Surgeons, Head and Neck Cancer Alliance and Council Member for the Society of University Otolaryngology. She is the Vice President of the US Collegium group and has served on the NCI Steering committee and the Larynx Preservation Guideline Panel for ASCO. Since 2000, The National Cancer Institute has funded her translational research on targeted therapy for head and neck squamous cell cancer patients.

\*Dr. Nathan will be rotating off the Steering Committee at the end of 2022.

---

**Tami L. Thomas, PhD, RN** is the Dr Herbert and Nicole Wertheim Endowed Chair in Prevention and Family Health, Professor and Associate Dean of Research in the College of Nursing and Health Sciences at Florida International University. Dr. Thomas began her program of research during doctoral studies and dissertation research, which integrated a minor in epidemiology with a PhD in nursing from the University of Florida. Dr. Thomas sought to develop a clearly defined area of intellectual inquiry focused on health promotion, cancer prevention, Human Papillomavirus (HPV) Vaccination, reduction of health disparities in rural areas, and acceptance of screening/prevention measures of infectious diseases in adolescents and young adults. She has conducted twenty funded studies and served as Principal Investigator on sixteen of these, with funding through the Robert Wood Johnson Foundation, Sigma Theta Tau International, the Florida Nurses Association, the National Institute of Health/National Institute of Nursing Research, the National Institute of Health/the National Institute of Minority Health and Health Disparities, and almost seven million dollars in awards from Health Resources & Services Administration (HRSA).

\*Dr. Thomas will be rotating off the Steering Committee at the end of 2022.

---

**Fred Wyand** is the Director of Communications for the American Sexual Health Association. Fred Wyand has been a sexual health educator for 19 years and currently serves as the director of communications for the American Sexual Health Association. A former supervisor of the National Herpes and HPV contact centers, he currently oversees ASHA's HPV and Cervical Cancer Prevention Resource Center and edits publications and online content for HPV and related diseases. In his role as ASHA's media liaison, Mr. Wyand develops policy and position statements for the organization, coordinates all press inquiries, and gives expert interviews to journalists seeking background for articles. He has also worked with the Centers for Disease Control and Prevention in developing updated treatment and counseling guidelines for HPV-associated diseases, and served as a contributor to the STI section for the revised version of Our Bodies, Ourselves.

\*Fred Wyand will be rotating off the Steering Committee at the end of 2022.

---

**Heather M. Brandt, PhD** is Director of the HPV Cancer Prevention Program at St. Jude Children's Research Hospital and Co-Associate Director for Outreach in the St. Jude Comprehensive Cancer Center. She also serves as a full member in the department of epidemiology and cancer control. She is a faculty affiliate in the University of Memphis School of Public Health and University of South Carolina Arnold School of Public Health. As a social and behavioral scientist, her research interests focus on cancer-related health disparities in cancer prevention and control and specifically on working with allies and partners to effectively use what we know works to increase HPV vaccination. This involves examining, describing, and intervening on cancer-related health disparities through innovative approaches in partnership with "communities" (defined broadly and diversely). Her research emphasizes dissemination and implementation of evidence-based approaches, knowledge-based practice, and co-creating knowledge with key allies and partners to improve outcomes through informed action on multiple levels.

\*Dr. Brandt will be rotating onto the Steering Committee in 2022.

---

**Jane Grey, MPH** is an Adolescent Immunization Coordinator and Health Educator with the California Department of Public Health, Immunization Branch. She specializes in immunizations for adolescents and quality improvement, leading statewide projects and campaigns that aim to increase immunization coverage of California's preteens and teens and improve immunization delivery practices. Jane is also an active member of the California HPV Vaccination Roundtable, serving on the steering committee and the Using and Improving HPV Vaccination Data and Increasing Parent and Community Knowledge workgroups. Jane earned her MPH from the University of North Carolina Gillings School of Global Public Health after completing her bachelor's degree in econometrics from the University of Wisconsin. She is proud to be part of the pro-vaccine community, helping to educate friends, family, and the public about the importance of vaccines. When not promoting vaccines, Jane can be found hiking, mountain biking, backpacking, and kayaking near her home in Tahoe.

\*Jane Grey will be rotating onto the Steering Committee in 2022.

---

**Sharon J Perlman, DDS, MPH** is an Oral Health Consultant to community organizations serving underserved families. She is a staunch advocate of preventing cancer through HPV vaccination and is on a mission to motivate oral health professionals to promote HPV vaccination as much as brushing and flossing. As a member of the American Association of Public Health Dentistry's Council on Practice, she led efforts for the successful adoption of the new HPV vaccination administration dental insurance code. Dr. Perlman earned her B.S. from the University of Illinois Champaign-Urbana, D.D.S. from the University of Illinois Chicago College of Dentistry and her M.P.H. in Health Policy and Administration from the UIC School of Public Health. She served as the Chief of Dental Services for the Cook County Department of Public Health in Illinois and adjunct Associate Professor for the University of Illinois College of Dentistry, Department of Pediatric Dentistry.

\*Dr. Perlman will be rotating onto the Steering Committee in 2022

# National HPV Vaccination Roundtable STAFF

**Debbie Saslow, Ph.D.**, is the Managing Director of HPV & GYN Cancers at the American Cancer Society. Since 1997, Dr. Saslow has served as the ACS subject matter expert for HPV-related cancers including cervical cancer. She provides strategic direction and evidenced-based guidance to the organization on the implementation of HPV cancer-related activities and is responsible for developing and updating ACS guidelines for cervical cancer screening and for HPV vaccination. Dr. Saslow also has served as the Vice-Chair of the National HPV Vaccination Roundtable since its inception in 2014 and is leading the launch of the National Roundtable on Cervical Cancer.

**Dr. Gabrielle “Gabby” Darville – Sanders** is the Strategic Director of the National HPV Vaccination Roundtable at the American Cancer Society. Prior to ACS, Dr. Gabby was an Assistant Professor at Mercer University in the Department of Public Health. During her faculty stents with Mercer University and the University of Georgia, she became a member of the HPV Cancer Free GA Workgroup under the Georgia Comprehensive Cancer Control Consortium (G3C). She has been a member since January 2017 and served as Co-Chair from Jan 2020 until May 2022. Dr. Gabby has been involved in HPV research, promotion, and practice throughout her professional career. Previous research has explored the use of health communication technology-based interventions to change health behavior among health disparate and underserved populations, with specific emphasis on cancer prevention through HPV vaccination. She has also conducted studies focused on provider and translational communication.

---

**Christina Turpin** is the Director for National HPV Vaccination Roundtable with the American Cancer Society (ACS). Along with the HPV Vaccination Roundtable team, she leads nationwide efforts to raise HPV vaccination rates and prevent HPV cancers with the ultimate vision of ending vaccine-preventable HPV cancers as a public health problem. She also serves as the current President of the Comprehensive Cancer Alliance of Idaho since 2017 and was recognized in 2020 by the Idaho Business Review Accomplished Under 40 for her efforts in the community. Christina has been with ACS for 12 years and started her career with ACS in Baltimore, Maryland before relocating home to Idaho. Prior to her current position, she focused on advancing priorities around cancer screening, HPV vaccination, quality of life, access to care, and health equity. Christina is a graduate of Penn State University and was inducted into the University's Senior Honor Society for her service and leadership to her alma mater. She resides in Boise, Idaho and enjoys spending time with her family out in the woods, on the lake, or cheering on Penn State Football.

---

**Liddy Hora** is the Program Manager for the National HPV Vaccination Roundtable at the American Cancer Society (ACS). In her role, Liddy supports the HPV Roundtable team by facilitating and coordinating the work of multiple projects to implement the Roundtable mission. This includes assisting with planning, tracking, evaluation, communication, and reporting on HPV Roundtable activities. Prior to transitioning to her current position, Liddy worked for 13 years throughout Central Iowa as an ACS Senior Manager, Strategic Health Systems Partner. She managed and prioritized health systems engagement on prevention, early detection, screening, and quality of life initiatives, employee health and a population health-related efforts to achieve ACS cancer control priorities. Her guiding principle is to help ensure that everyone has a fair and just opportunity to prevent, find, treat, and survive cancer. Liddy is a graduate from Iowa State University with a degree in Business and Marketing. She loves biking, gardening, walking, reading, and spending time with family and friends.
