Launch Day Comments

“My favorite topic was about patient hesitancy and how to address it, this is something that is seen across the board and being able to confidently address concerns will be beneficial.”

“Launch day provided me useful information and left me feeling motivated for change.”

“Thank you for this opportunity and allowing us a chance to learn and grow with others.”

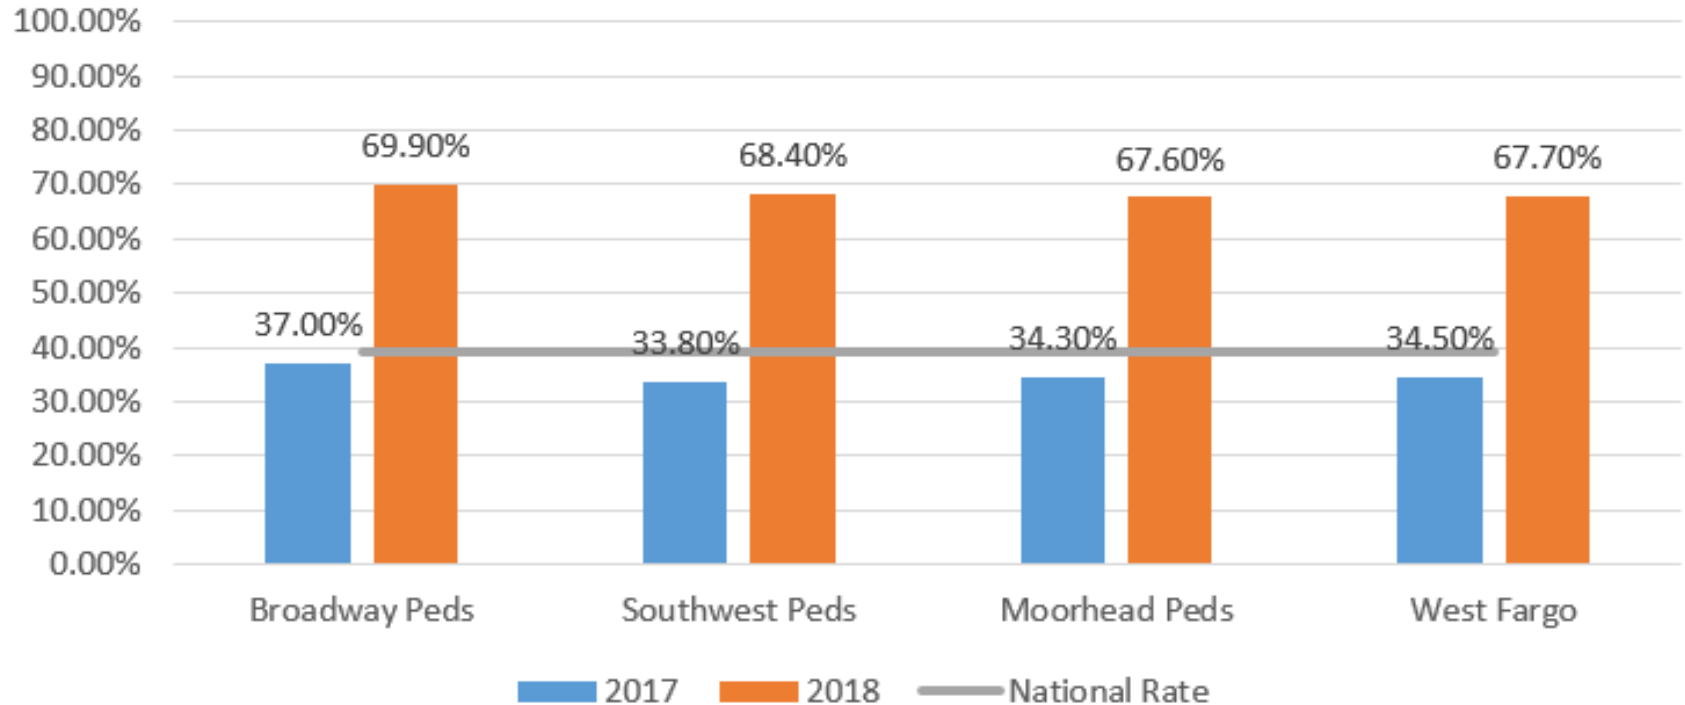

“Exceeded expectations!”

“Launch day met my expectations because it was a very comfortable environment; even when out of my comfort zone.”

“I enjoyed discussing the current “myths” related to vaccines and how to address them. I also enjoyed the group work; discussing current immunization protocols/trends.”
