

What big impact would you like to see this HPV Vaccination Roundtable task group have on integrated delivery systems (IDS) in the US?	How can we effectively influence IDS decision makers to prioritize HPV vaccination?	What other major stakeholders would you suggest we hear from to inform our team project?	What would you like this group to do with the information we've heard from Mercy, Parkland, Sanford and Ochsner to date?	What practical tools would be helpful to develop for IDS systems?					
Open-Ended Response	Open-Ended Response	Open-Ended Response	Open-Ended Response	Podcasts	Short videos	How-to /How-we-did-it fact sheets	Webpage	Webinars	Other (please specify)
Recommend the HPV HEDIS metric as a quality measure	Educate managers/CMOs in where HPV vaccination rates stand and how they can be improved	A few IDS leaders, quality assurance/QI officers, physician leaders from a few organizations	unsure-- missed last call		Short videos	How-to /How-we-did-it fact sheets			
standardization of some tools, monitoring, and summary of best practices by key characteristic within IDS's	By making it measurable		Webinar summary	Podcasts		How-to /How-we-did-it fact sheets		Webinars	
Help providers understand that recommended vaccines are as critical to strongly recommend as required ones, and to tell families that they won't back down from continuing to recommend anti cancer vaccines at every visit	Talk about long term costs of cancer vs cost to endorse and give vaccine	IT support staff and teenagers	Continue to share more widely			How-to /How-we-did-it fact sheets			
The importance of HPV vaccination to providers and parents so more education targeted at these folks. Would also be great if the vaccine could become a mandatory state/gov requirement. That would improve rates within IDS.	Providing data on HPV-related cancers; cost analysis reports	State health department; Federal/CDC/ACIP	Make it accessible for later review by group if needed						HPV-related cancer testimonies to share
Increase in % who include HPV/adolescent immunization in their quality measures. And then see their rates increase	Cost effectiveness model?	Insurers	Cross check with Action Guide to see if there is anything we need to add		Short videos	How-to /How-we-did-it fact sheets	Webpage		
Continuing to integrate all areas of patient care into the support and administration of HPV vaccination while putting systems in place that increases all vaccination rates.	Data is a strong supporter for vaccination and showing how HPV rates are starting to decline along with what cancers are anticipated to decrease as a result is a powerful communication tool.	Team involvement from all areas who feel they own a part of the process is vital to how patients are educated regarding vaccination. Ensure that medical assistants, nurses and advanced clinicians are all part of the conversation.	Determine which has the highest success rates and work with other organizations to implement similar strategies while measuring outcomes.			How-to /How-we-did-it fact sheets		Webinars	
Influence major hospital systems to utilize their primary care spaces to vaccinate more preteens!	Wondering if the ACS internal hospital system tools could become a partner slide deck that could be reviewed and endorsed by task group.	Not sure!	case studies?		Short videos			Webinars	
Can we bring IDSs together to hear about successes? Can ACS "hire me" to work with IDSs to develop the educational interventions and other interventions that would boost rates/ decrease missed opportunity rates :-)	We should ask the IDSs that have presented -- "What made your IDS prioritize this?" I don't know their value systems.	The manufacturers -- it seems like they are already doing a lot in this arena	Can we dig a little deeper with these groups and create a "Lessons Learned" document/webpage for IDSs?						I think we have to ask them. I'm just an immunization
Improve HPV series initiation and completion rates	Be champions of the effort. Be vocal in all available forums.	Denver Health Geissinger	Share the details of our efforts with interested IDS groups			How-to /How-we-did-it fact sheets		Webinars
