

# SOUTH DAKOTA: HPV Task Force

Aqua

**Coalition Goal:** Increase the percentage of females ages 13-17 in South Dakota who have completed the three-dose HPV vaccine series from 40.9% to 80% by 2020, and males ages 13-17 who have completed the three-dose HPV vaccine series from 7.7% to 40% by 2020.

**Stakeholder Group Structure:** Part of the state CCC program/coalition

**Development Phase:** Actively meeting and implementing

**HPV Vaccination Prevalence—Female: 61%**

**HPV Vaccination Prevalence—Male: 34.4%**

## State Information & Resources:

[South Dakota AHEC HPV Cancer & Prevention Profile](#)

## Coalition Strategies and Activities

### Strategies

- Workgroup Committees
- Regularly Scheduled Committee Calls
- Meeting Facilitation

### Activities

- Professional Education/Outreach
- Practice Improvement
- Working with Insurers

## Proudest Accomplishments

The successes that one of our partners (Sanford Health) has seen in increasing HPV vaccination rates due to the funding opportunity that was made available through the SD Task Force.
