**Breakout #2: Increasing HPV Vaccination in Rural Communities:
Challenges & Opportunities**

BOARD ROOM WTI 231

In 2017, data from NIS-Teen revealed a major rural-urban disparity in HPV vaccination, with adolescents in rural areas less likely to receive the HPV vaccine than their urban counterparts. This interactive break-out session will provide participants with an opportunity to discuss the unique challenges to HPV vaccination that exist in rural Southern communities. Participants will provide input on various barriers that they have observed and will brainstorm creative, community-centered solutions.

Discussion Leaders:

Sayward Harrison
Research Assistant Professor
Department of Health Promotion, Education, and Behavior
Director of Research, SC SmartState Center for Healthcare Quality (CHQ)
Arnold School of Public Health
University of South Carolina

Laura Fish
Assistant Professor, Department of Community and Family Medicine
Director, Duke Cancer Institute Behavioral Health and Survey Research Core

**BREAKOUT #3: Survey Says...Top Kinds of Collaborations with Health
Systems (& Medicaid Plans too!)**

WTI 101

We peeked into the national HPV coalitions survey data to get a sense of how states are collaborating with health systems and plans. We'll talk about themes and innovations, and offer attendees the chance to share their work. We'll hear about work in Iowa to engage 3 Medicaid plans, and share some terrific tools from the HPV Roundtable to help support your work.

Discussion Leaders:

Sarah Shafir, ACS
Bethany Kintigh, AIM/IA DOH
Jennifer Nkonga, HPV Roundtable
