

CELEBRATE & INNOVATE 10 YEARS

2024 ACS National HPV Vaccination Roundtable Virtual National Meeting Program

2024 ACS National HPV Vaccination Roundtable Virtual National Meeting Agenda

Monday, October 7: HPV Vaccination is Cancer Prevention

- 12:00 PM ET **Welcome to the Celebration**
- Tamika Felder, Cervivor
- 12:05 PM ET **10-Year Celebrate & Innovate Interview**
- Tamika Felder, Cervivor
 - L.J Tan, MS, PhD, Immunize.org
- 12:15 PM ET **Panel Q&A: HPV-Related Cancers Survivors**
- Moderator: Tamika Felder, Cervivor
 - Lindsay Gullatte-Lee, Get in Good with Your Health, Cervivor Ambassador
 - Susie Sanchez, HPV Cancers Alliance
 - Mike West, JD, Ensign Services, Inc.
- 12:55 PM ET **Cancers Associated with HPV**
- Virginia Senkomago, PhD, MPH, Centers for Disease Prevention and Control
- 1:25 PM ET **Celebration Wrap-Up & After Party**
- Christina Turpin, American Cancer Society

Tuesday, October 8: New and Emerging Science in HPV Vaccination

- 12:00 PM ET **Welcome to the Celebration**
- Michelle Fiscus, MD, FAAP, Association of Immunization Managers (AIM)
- 12:05 PM ET **10-Year Celebrate & Innovate Interview**
- Michelle Fiscus, MD, FAAP, Association of Immunization Managers (AIM)
 - Melinda Wharton, MD, MPH, Centers for Disease Control and Prevention
- 12:15 PM ET **Potential Impact of HPV Vaccine Initiation at Age 9**
- Kunal Saxena, MS, PhD, Merck
- 12:25 PM ET **2023 National Immunization Survey-Teen Data**
- Cassandra 'Sandy' Pingali, MPH, MS, Immunization Services Division, National Center for Immunization and Respiratory Diseases, Centers for Disease Control and Prevention
- 12:35 PM ET **HPV Vaccination Immune Response and Research to Practice**
- Stephanie Staras, MSPH, PhD, University of Florida
- 12:45 PM ET **Panel Q&A: New and Emerging Science in HPV Vaccination**
- 1:20 PM ET **Celebration Wrap-Up & After Party**
- Gabrielle Darville-Sanders, PhD, American Cancer Society

Wednesday, October 9: Advancing HPV Vaccination Equity

- 12:00 PM ET **Welcome to the Celebration:**
- Rebecca Perkins, MD, MSc, American College of Obstetricians and Gynecologists (ACOG)
- 12:05 PM ET **HPV Vaccination and (In)equity: The Big Picture**
- Jennifer C. Erves, PhD, Vanderbilt University Medical Center
- 12:15 PM ET **Panel Q&A: HPV Vaccination Equity within Special Populations**
- Moderator: Ashanda Saint Jean, MD, FACOG, National Hispanic Medical Association
 - Mollie Aleshire, DNP, MSN, APRN, FNP-BC, PPCNP-BC, FNAP, University of Louisville School of Nursing
 - Daisy Morales-Campos, PhD, The University of Texas Health Science Center at Houston, School of Public Health, San Antonio Regional Campus
 - Synovia Moss, MPA, Good Health Women's Immunization Networks (Good Health WINs), National Council of Negro Women, Inc.
- 12:50 PM ET: **HPV Vaccination Equity: Access with Non-Traditional Providers**
- Moderator: Ashanda Saint Jean, MD, FACOG, National Hispanic Medical Association
 - Alice P. Chen, DMD, FAAPD, Roseman University
 - Parth Shah, PharmD, PhD, Hutchinson Institute for Cancer Outcomes Research (HICOR) and the Cancer Prevention Program, Public Health Sciences Division, Fred Hutchinson Cancer Center
 - Karen Schwind, BSN, RN, NCSN, Texas School Nurses Association
- 1:25 PM ET **Celebration Wrap-Up & After Party**
- Kiara Long, MPH, American Cancer Society

Thursday, October 10: HPV Vaccination Collaborations & Partnerships

- 12:00 PM ET **Welcome to the Celebration**
- Kristin Oliver, MD, MHS, Icahn School of Medicine, American Academy of Pediatrics (AAP)
- 12:05 PM ET **10-Year Celebrate & Innovate Interview**
- Kristin Oliver, MD, MHS, Icahn School of Medicine, American Academy of Pediatrics (AAP)
 - Margot Savoy, MD, MPH, FAAFP, FABC, FAAPL, CPE, CMQ, American Academy of Family Physicians (AAFP)
- 12:15 PM ET **Taking Action on HPV Vaccination in New York State**
- Michael Seserman, MPH, American Cancer Society
 - Manika Suryadevara, MD, MPH, SUNY Upstate Medical University
 - Annalea Trask, Stony Brook Cancer Center
- 12:30 PM ET **Panel Q&A**
- Moderator: Lisa Robertson, MPH, Indiana Immunization Coalition
- 12:50 PM ET **National Rural HPV Vaccination Collaboration**
- Heather Brandt, PhD, St. Jude Children's Research Hospital
 - Ashley Lach, MHA, CPHQ, American Cancer Society
 - Sara Lolley, MPH, American Academy of Pediatrics
- 1:05 PM ET **Panel Q&A**
- Moderator: Lisa Robertson, MPH, Indiana Immunization Coalition
- 1:25 PM ET **Celebration Wrap-Up & After Party**
- Christina Turpin, American Cancer Society

Friday, October 11: Global Best Practices in HPV Vaccination

12:00 PM ET

Welcome to the Celebration

- Heather Brandt, PhD, St. Jude Children's Research Hospital

12:05 PM ET

10-Year Celebrate & Innovate Interview

- Heather Brandt, PhD, St. Jude Children's Research Hospital
- Noel Brewer, PhD, University of North Carolina Gillings School of Public Health

12:15 PM ET

Public Health Impact, Efficiency, and Equity of HPV Vaccination at the Global, Regional, National, and Income Levels

- Kaja Abbas, PhD, London School of Hygiene & Tropical Medicine (UK) and Nagasaki University (Japan)

12:30 PM ET

International Papillomavirus Society One Less Worry Campaign

- Joel Palefsky, MD, FRCP(c), University of California, San Francisco

12:45 PM ET

HPV Vaccination Behavioral Intervention Pathways in 3 Low- & Middle-Income Countries

- Sara Comstock, MSSW, American Cancer Society

1:00 PM ET

Panel Q&A: Global Best Practices in HPV Vaccination

1:25 PM ET

Celebration Wrap Up & After Party

- Gabby Darville-Sanders, PhD, American Cancer Society

Monday October 7

Tamika Felder

Chief Visionary, *Cervivor*

A cancer survivor, award-winning women's health advocate, and Chief Visionary at Cervivor – a nonprofit dedicated to cervical cancer advocacy and support – Tamika Felder also has a mission to eradicate cancer and shine a spotlight on the patient voice in healthcare.

Named a "Cancer Rebel" by Newsweek, Tamika is a highly sought-after speaker on cervical cancer advocacy, cancer prevention, HPV education, and living life with purpose. She's shared her story on Presidential Panels convened by the White House, trained thousands of ambassadors using her signature patient advocacy framework and traveled internationally to share her experiences with women around the world. Tamika currently serves on the steering committee of the National HPV Vaccination Roundtable. A member of Family Reach's Cancer

Equity Initiative National Strategic Council, she is regularly tapped by leading organizations and Fortune 500 companies around the globe to share her story and expertise.

An award-winning television producer and host, Tamika is a captivating personality, as well as an engaging and talented storyteller. Her work has led to her being featured in Bravo's "Real Housewives of Beverly Hills" franchise; as well as a profile feature in the award-winning documentary "Someone You Love: The HPV Epidemic."

Lindsay Gullatte-Lee

Founder & Director, *Get In Good With Your Health Cervivor Ambassador*

Lindsay Gullatte-Lee, a resilient stage 3C cervical cancer survivor, fulfills the role of Director at Get In Good With Your Health. Beyond being a published author, devoted wife, mother, and dynamic motivational speaker, Lindsay stands out as an advocate for cervical cancer prevention and awareness. Her journey from cervical cancer survivor to advocate is characterized by a dedicated commitment to dispelling myths and confronting stigmas associated with cervical cancer. Lindsay's impactful work is driven by a mission to expand her Get In Good with Your Health's Health Fair/Pop Up Shop nationwide, with the goal of educating and empowering individuals on the importance of cervical health.

A 2023 Cervivor School graduate, and now Cervivor mentor,

Lindsay has acquired additional knowledge and skills, poised to make a significant impact in the ongoing fight against cervical cancer. Her dedication to raising awareness and providing support to those affected by cervical cancer serves as hope in the collective journey towards eradicating this disease.

Susie Sanchez

Anal Cancer Survivor, HPV Cancers Alliance

Susie Sanchez is an executive assistant who works remotely from the Bay Area and Northeast Georgia. Susie has over 25 years' experience as an executive assistant. She's a devoted wife, mother of three, a grandmother, published author of her memoir— "The Dream Lived" —a former professional cheerleader, and a recent cancer survivor.

Susie captured the attention of many on a national level dancing as a professional cheerleader in the NFL during the 2011-2012 season for the Oakland Raiders as a Raiderette. "The Dream Lived" is a true, inspirational story that demonstrates hope, determination, and the magic of knowing what life is like when you live your dreams. It's an example and a reality that all dreams are attainable.

In March of 2021, Susie was diagnosed with anal cancer caused by HPV. As a cancer survivor, she's passionate and finds it imperative to share her story to the world. She hopes to offer awareness, education and knowledge regarding anal cancer, HPV, and the HPV vaccine to as many as she can. Protecting future generations from this deadly virus with the HPV vaccine is a must to Susie. From living the dream to cancer survivor – Susie has experienced many pivotal moments throughout her life.

Virginia Senkomago, PhD, MPH

*Epidemiologist in cancer surveillance branch,
Division of Cancer Prevention and Control.*

Dr. Virginia Senkomago is an epidemiologist in the Cancer Surveillance Branch in the Division of Cancer Prevention and Control at the US Centers for Disease Control and Prevention (CDC). She works on the production and dissemination of various U.S. Cancer statistics (USCS) data sets and is also a subject matter expert on human papillomavirus (HPV)-associated cancers and cervical cancer. Dr. Senkomago publishes on HPV-associated cancers in USCS data and other data sets. She obtained a PhD in Epidemiology from the University of North Carolina at Chapel Hill, and an MPH from Yale University.

Litjen (L.J) Tan, MS, PhD

Chief Policy and Partnerships Officer, *Immunize.org*
Co-Chair, *National Adult and Influenza Immunization Summit*

L.J is the Chief Policy and Partnerships Officer for the Immunization Action Coalition, the nation's leading developer and provider of novel and impactful immunization resources to advocate for and educate and facilitate immunizations. She holds a PhD in medical science, specializing in medical and public health policy development and advocacy pertaining to infectious diseases, with a particular focus on vaccine-preventable diseases, emerging infections, and antimicrobial resistance. Nationally recognized for her passion for infectious disease and public health advocacy, for organizing and mediating innovative forums to address important public health policy needs, and for dynamic presentations within these fields, she serves as a consultant for the ESWI and the APACI to develop influenza summits for the EU and for the Asia-

Pacific region. She directed the American Medical Association's Division of Medicine and Public Health, whose mission was the complete integration of the disciplines of medicine and public health into a collaborative structure that supports primary, secondary, and tertiary prevention and wellness across the lifespan.

Mike West

Vice President of Litigation, *Ensign Services, Inc.*

Mike West practiced law as a trial attorney for 30 years in California, primarily defending healthcare providers before recently accepting a position with Ensign as the Vice President of Litigation for its skilled nursing facilities across the country. Mike currently lives in San Diego, and he is a married father of two. Mike was diagnosed with Stage IV throat cancer due to HPV in August 2017, and his treatment consisted of surgery, chemotherapy, and radiation through the end of that year. Now almost 7 years beyond that challenge, Mike shares his story to schools, parents, and providers as a fierce advocate, working with such organizations as the California Department of Public Health, Head & Neck Cancer Alliance, and the American Cancer Society to bring awareness to the prevalence of HPV in our society and for the promotion of the HPV vaccine for children to protect them from HPV-related

cancers in their future. Mike also enjoys sharing his story of survival to bring hope to those facing devastating obstacles in their life by finding blessings around you even in the darkest of storms, and he was previously recognized as the HPV Vaccination Advocate of the Year by the California HPV Vaccination Roundtable.

Tuesday October 8

Michelle Fiscus, MD, FAAP

Chief Medical Officer, *Association of Immunization Managers (AIM)*

Dr. Michelle Fiscus is a board-certified pediatrician and public health advocate who practiced general pediatrics in Franklin, TN, for 17 years before transitioning to a career in public health in 2016. She served as the Medical Director of the Tennessee Department of Health's Vaccine-Preventable Diseases and Immunization Program and led the state's COVID-19 vaccination efforts until July 2021. She now serves as the inaugural Chief Medical Officer of the Association of Immunization Managers, the professional organization of the 64 CDC-funded immunization programs across the U.S. states, territories, and major cities. Dr. Fiscus has served as a senior health policy consultant for the National Academy for State Health Policy and recently completed a term on the Board of Directors of the American Academy of Pediatrics. Dr. Fiscus is a

proud graduate of Indiana University and Indiana University School of Medicine and completed her residency in pediatrics at Riley Children's Health at Indiana University Medical Center. She and her family recently relocated to their forever home in Maryland.

Cassandra 'Sandy' Pingali, MPH, MS

Epidemiologist, Immunization Services Division, National Center for Immunization and Respiratory Diseases, *Centers for Disease Control and Prevention*

Cassandra (Sandy) Pingali is an epidemiologist at the Centers for Disease Control and Prevention in the Immunization Services Division. As part of her role as the subject matter expert for the National Immunization Survey-Teen, she leads a yearly MMWR assessing vaccination coverage among adolescents ages 13-17 years. Her research interests include adolescent vaccinations, vaccine confidence, and health disparities.

Kunal Saxena, MS, PhD

Director, Outcomes Research, *Merck*

Dr. Kunal Saxena is currently a Director of Outcomes Research, in the HPV Vaccines Value and Implementation team at Merck. He leads a variety of real-world evidence generation and modeling studies that demonstrate the impact of HPV vaccines in the US, and ex-US. One of his research interests is to highlight the impact of HPV vaccine initiation at age 9. Kunal is a Health Economist by training, and holds a PhD in Health Economics and Outcomes Research from Virginia Commonwealth University.

Stephanie Staras, MSPH, PhD

Professor and Associate Chair of Faculty Development, Health Outcomes and Biomedical Informatics, Program Co-Lead Cancer Control and Population Sciences, UF Cancer Center, Associate Director for the Institute for Child Health Policy, *University of Florida*

Stephanie A. S. Staras, M.S.P.H., Ph.D., is a Professor and Associate Chair for Faculty Development in the Department of Health Outcomes and Biomedical Informatics. She is also the Associate Director of the Institute for Child Health Policy and co-lead for the UF Health Cancer Center's Cancer Control and Population Science Program. Dr. Staras is an expert in rigorous and impactful research in prevention of HPV-related cancers and using implementation science methods to increase health equity. She focuses on improving the clinical recommendations for, parent receptiveness to, and access

to HPV vaccines among adolescents within Florida. She has served as Principal Investigator on investigator-initiated National Institutes of Health (NIH) National Cancer Institute (NCI) funded and foundation grants with total PI funding of over \$11 million. Her large, high-enrolling projects contributed critically to the UF Cancer Center NCI designation by demonstrating the necessary impact in the catchment area and comprising 40% of UF's clinical trial accruals in the past three years.

Melinda Wharton, MD, MPH

Associate Director for Vaccine Policy, National Center for Immunization and Respiratory Diseases, *Centers for Disease Control and Prevention*

Dr. Melinda Wharton currently serves as the Associate Director for Vaccine Policy and Acting Chief Medical Officer in the National Center for Immunization and Respiratory Diseases at the Centers for Disease Control and Prevention. She received her medical degree from Harvard Medical School and master's degree in public health from Johns Hopkins School of Hygiene and Public Health. She completed her training in internal medicine at the University of Michigan and her infectious diseases training at the Duke University Medical Center, in Durham, NC. Dr. Wharton joined CDC as an Epidemic Intelligence Service Officer in 1986 and was assigned to the Tennessee Department of Health and Environment in

Nashville, TN. She joined CDC's immunization program in 1992, and since that time has held a variety of positions. From 2006 to 2013, she served as Deputy Director of the National Center for Immunization and Respiratory Diseases and from 2013 to 2021, as Director, Immunization Services Division, NCIRD. She previously served as a member (2009-2015) and as chair (2012-2015) of WHO's Global Advisory Committee on Vaccine Safety and as a member of FDA's Vaccines and Related Biological Products Advisory Committee (2006-2020).

Wednesday October 9

Mollie Aleshire, DNP, MSN, APRN, FNP-BC, PPCNP-BC, FNAP

Assistant Professor, DNP Project Coordinator,
University of Louisville School of Nursing

Dr. Mollie Aleshire completed doctoral training at the University of Kentucky in 2010. She has more than 20 years of nursing experience and, for more than a decade, has mentored undergraduate and graduate students in the classroom, online learning, and clinical settings, as well as in community and global environments. Dr. Aleshire is certified as a primary care family and pediatric nursing practitioner. Dr. Aleshire previously served as an associate professor at the University of Kentucky College of Nursing and at the University of North Carolina Greensboro School of Nursing, where she also held the position of director of the DNP program.

Dr. Aleshire's research focuses on health disparities, health promotion, healthcare access, and cancer prevention/screening for minority populations. Her program of research aims to use a community-engaged approach to promote health and healthcare for disadvantaged groups, including sexual and gender minorities, black women, and women with increased risk for colorectal, breast, and HPV-associated cancers. Dr. Aleshire has authored numerous publications and presentations. Dr. Aleshire is a member of several professional organizations, serves as a manuscript reviewer for a number of journals, and actively participates in professional, university, community, and international service endeavors. Due to her contributions to interprofessional education, scholarship, and practice, Dr. Aleshire has been recognized as a Distinguished Scholar and Fellow of the National Academy of Practice in Nursing.

Alice P. Chen, DMD, FAAPD

Associate Professor, *Roseman University*

Dr. Alice Chen is an Associate Professor at Roseman University's Nevada campus. As a board-certified pediatric dentist and a Fellow of the American Academy of Pediatric Dentistry, Dr. Chen is passionate about the prevention of oral diseases in children. Her focus in HPV prevention has led to collaborations with cancer organizations on both state and national levels. Dr. Chen strongly believes that just like providers from other facets of healthcare, dental professionals have a responsibility in advocating for HPV vaccine and prevention strategies. In her role as an educator and clinician, she works every day to make that a reality for dental students and dental residents.

Jennifer Cunningham-Erves, PhD, MPH, MAEd, MS, CHES

Associate Professor, Department of Health Policy, Director of Community Engaged Research, Office of Health Equity, *Vanderbilt University Medical Center*

Dr. Jennifer Cunningham-Erves is a behavior scientist focused on cancer prevention behaviors and lowering associated disparities. Her research seeks to improve HPV vaccine uptake among children through behavioral interventions and implementation science while intersecting the sociocultural environment. Dr. Cunningham-Erves has also spearheaded efforts to identify and test strategies to better engage community members and leaders throughout the research process with a goal to increase understanding and participation of diverse populations. As the Director of Community Engaged Research, she is developing and will oversee a program that supports the collaborative research opportunities between academic researchers and the

community along with the community-engaged research experiences of faculty, early-stage investigators, students, and staff at Vanderbilt University Medical Center.

Daisy Y. Morales-Campos, PhD

Associate Professor, *The University of Texas Health Science Center at Houston, School of Public Health, San Antonio Regional Campus*

Dr. Daisy Morales-Campos' research interests include public health education, cancer prevention, and maintenance of behavior change among Hispanics. She is especially interested in health, culture, and reproduction issues that immigrant women from Latin America and their children encounter in the U.S. She has extensive experience in the design and implementation of community-based participatory research, culturally appropriate research methods and protocols, cancer screening studies, and interventions for Hispanics utilizing a promotora model. Her research currently focuses on community-based and health system interventions to promote cancer prevention in underserved communities and in FQHC settings by working with providers and health care

systems with an implementation science focus.

Synovia Moss, MPA

National Project Manager, Good Health Women's Immunization Networks (Good Health WINs), *National Council of Negro Women, Inc.*

Synovia Moss is the CEO/Managing Partner of Moss Consulting & Management Group, Inc., which specializes in designing and leading large-scale community engagement initiatives to address social determinants of health with communities of color. She brings over two decades of expertise in marketing, strategic planning, program management, relationship building, and grassroots advocacy for organizations of all sizes and sectors. Currently, she is the Project Manager for Good Health Women's Immunization Networks (Good Health WINs) for the National Council of Negro Women, Inc., with a reach of over 4,500,000 in the African American community. Good Health WINs partners with NCNW's 32 national affiliate organizations and the black Greek letter organizations to

increase vaccination coverage across different racial and ethnic adult populations currently experiencing disparities. Most recently, Synovia served as a global strategic advisor for the Brain Matters Early Learning Global Network, launched in 27 countries across four continents. Her love of neuroscience, community engagement, and program management led her to become the first program director for the Child Advancement Network (CAN) and Vroom Wisconsin Initiative at the Clinical and Translational Science Institute (CTSI) at the Medical College of Wisconsin. Synovia has an adept skill to translate science into relatable programs, policy, and effective messaging leading to collective impact.

Guided by the tenants of faith, family and community, Synovia continues to advocate for women's and children's issues and health equity at the local, statewide and national levels. She is a member of the City of Milwaukee Mayor's Task Force on Early Care; board of director for Pastors United; Chair of Health Equity for the Wisconsin Immunization Neighborhood's statewide coalition of immunization advocates and is a member of the Milwaukee County Emergency Response Team for COVID-19. She designed and coordinated the "Vaccine Voices, Vaccine Choices" campaign in partnership with the Wisconsin Immunization Neighborhood, African American Ladies Empowered to Grow Opportunities (ALEGO), Pastors United, and other community-based groups to address vaccine hesitancy in the African American community. Synovia is an influencer and leads by example. She is currently the president and charter member of the NCNW Milwaukee Section and co-chair of the NCNW National Health Equity COVID-19 Sub-Committee. She received a BA in Political Science from the University of California, Riverside, and an MA in Public Administration from California State University, Dominguez Hills with honors.

Rebecca Perkins, MD, MSc

Associate Professor of Obstetrics and Gynecology,
*Boston University School of Medicine. OB/GYN,
Boston Medical Center*

Dr. Rebecca Perkins is an Associate Professor of Obstetrics and Gynecology at Boston University School of Medicine, and a practicing gynecologist at Boston Medical Center. Her career is dedicated to reducing health disparities in cervical cancer. Her current research focuses on improving utilization of HPV vaccination and cervical cancer screening guidelines. Dr. Perkins is currently working on national projects related to HPV vaccination and cervical cancer prevention with the American Cancer Society, American Academy of Pediatrics, American College of Obstetricians and Gynecologists, and the American Society for Colposcopy and Cervical Pathology.

Ashanda Saint Jean, MD, FACOG

Chair of OBGYN, *National Hispanic Medical Association*

Dr. Ashanda Saint Jean is a graduate of The Sophie Davis School of Biomedical Education/CUNY Medical School. She received her doctorate in medicine from New York Medical College and completed her residency training at Danbury Hospital/Yale New-Haven affiliate in Danbury, Connecticut. She is a board-certified OB/GYN physician with over 20 years of experience working in New York City, focused on the delivery of quality care to underrepresented minority women. Her life's work has been devoted to the excellence in health care delivery via a patient centered approach that is inclusive of comprehensive care, mental health, wellness, and combating social determinants of health.

Dr. Ashanda Saint Jean is the Chair of Obstetrics and Gynecology at Health Alliance Hospitals of the Hudson Valley, part of the Westchester Medical Center Health Network and an Associate Professor in the Department of OB/GYN at New York Medical College. She is a consultant for the New York City Department of Health, a member of the Ulster County Board of Health, the Hudson Valley section chair for ACOG (American College of Obstetricians and Gynecologists) District II (New York State), the ACOG District II diversity, equity and inclusion delegate, representing New York State, for the ACOG national DEI delegation, a physician member for the New York State Coalition for Doula Access, and an appointed member of both the New York State and New York City Maternal Mortality Review Boards.

Karen S. Schwind BSN RN NCSN

Texas School Nurse Organization Past President (2020-2022)
National Board of Certification of School Nurses (NBCSN)
Board of Directors 2024-2027
ACS Subject Matter Expert for 'Addressing HPV Vaccination
in Texas schools,' Project ECHO model

Karen Schwind is a graduate of the Toledo Hospital School of Nursing and Bowling Green State University in Ohio. Karen began as an elementary school nurse in New Braunfels in 1996. She served as the Health Services Director for New Braunfels ISD from 2004-2023, retiring in June 2023. She is a member of the National Association of School Nurses, the Texas Nurses Association, the Texas School Nurse Administrator Association (TSNAA) and the Texas School Nurse Organization where she serves as Immediate Past President. Karen has been a nationally certified school nurse since 2010. She serves on the Texas American Cancer Society HPV Coalition, Education

Workgroup. Karen also serves on the advisory board for All for Them, a vaccine initiative to educate and immunize children for vaccines including HPV. Her mission is to serve as a health resource for nurses and colleagues by providing tools and evaluating research in educating them to best serve the health needs of their students. Karen's vision is to provide opportunities within the community to improve health and wellness and to educate the child to protect and care for themselves and their environment.

Parth Shah, PharmD, PhD

Assistant Professor, *Hutchinson Institute for Cancer Outcomes Research (HICOR) and the Cancer Prevention Program in the Public Health Sciences Division at Fred Hutchinson Cancer Center*

Dr. Parth Shah is an Assistant Professor with the Hutchinson Institute for Cancer Outcomes Research (HICOR) and the Cancer Prevention Program in the Public Health Sciences Division at Fred Hutchinson Cancer Center. Dr. Shah conducts behavioral and implementation science research to inform clinical practice and health policy in healthcare delivery. Much of his research focuses on expanding the role of pharmacists in delivering cancer prevention and control services. Dr. Shah studies the adoption and integration of HPV vaccination services in community pharmacies to reduce missed opportunities for adolescents to get vaccinated. Additionally,

a key component to adoption and use of HPV vaccination is effective provider communication about this evidence-based clinical service with parents and patients. As such, his research portfolio also includes health communication research focused on effective ways healthcare providers can recommend HPV vaccine and addressing vaccine hesitancy and misinformation. Dr. Shah also collaborates with researchers on domestic and global HIV prevention studies including behavioral and implementation research with the HIV Vaccine Trial Network (HVTN). Dr. Shah applies a multilevel perspective to understanding the challenges of implementing evidence-based clinical services into a community pharmacy context.

Thursday October 10

Ashley Lach MHA, CPHQ

Program Manager, HPV Geographic Disparities,
American Cancer Society

Ashley Lach, MHA, CPHQ, joined the American Cancer Society in 2009 as an Income Development Specialist. In 2014, she transitioned out of development and into a role within the patient support pillar where she led the goals of the American Cancer Society's mission through comprehensive, prioritized partnerships with healthcare systems, payors, clinics, providers, and state agencies. In 2021, Ashley transitioned to a grant funded position working on the Interventions & Implementation team where she has been focused on increasing HPV vaccinations in rural and frontier communities. Ashley received her Bachelor of Arts in Communication from DePaul University and her Master of Health Administration from Ohio University. Ashley holds a basic certification of quality and safety from the

Institute for Healthcare Improvement (IHI) and is a Certified Professional in Healthcare Quality (CPHQ) which is the gold standard from the National Association for Healthcare Quality.

Sara Lolley, MPH

Program Manager of Immunization Initiatives,
American Academy of Pediatrics

Sara Lolley, MPH, is an Immunization Initiatives Program Manager at the American Academy of Pediatrics. She oversees a CDC-funded grant, Supporting Pediatricians to Increase HPV and Pediatric Influenza Vaccination Rates. The project aims to provide education, resources on evidence-based best practices, and support for community-based organizations and providers to increase vaccination rates, particularly in rural areas. She is a member of the National HPV Vaccination Roundtable and has participated in St. Jude's Rural HPV Vaccination Think Tank. Sara received her degree from Umeå University in Sweden and is currently based in Chicago.

Kristin Oliver, MD, MHS

Associate Professor, Icahn School of Medicine, *Mount Sinai*

Dr. Kristin Oliver is a pediatrician and public health specialist. She is currently an Associate Professor in the Departments Environmental Medicine & Public Health and Pediatrics at the Icahn School of Medicine at Mount Sinai. Dr. Oliver's scholarly and research interests focus on quality improvement for vaccination and vaccine hesitancy. She represents the American Academy of Pediatrics on the National HPV Vaccination Roundtable. She is the Program Director for the General Preventive Medicine Residency at Mount Sinai. Dr. Oliver has extensive experience working in public health and policy agencies. She previously served as a health care analyst for GAO in Washington, DC, and is currently a medical specialist for the New York City Department of Health and Mental Hygiene. Dr. Oliver holds a BA from McGill University, and

an MHS in Health Policy from the Johns Hopkins Bloomberg School of Public Health. She received her MD from the Mount Sinai School of Medicine and completed residencies in Pediatrics and Preventive Medicine at the Mount Sinai Hospital.

Lisa Robertson, MPH

Executive Director, *Indiana Immunization Coalition*

Lisa Robertson has been with the Indiana Immunization Coalition since 2013. Lisa is a graduate of Hanover College and received her master's degree in public health from IUPUI. Lisa spent 12 years as the Director of Reach Out and Read Indiana before coming to the Indiana Immunization Coalition. She enjoys reading, watching her kids play sports, her husband coach football, and hanging out with friends.

Margot Savoy MD, MPH, FAAFP, FABC, FAAPL, CPE, CMQ

Senior Vice President, Education, Inclusiveness and Physician Well-Being, *American Academy of Family Physicians (AAFP)*

Margot Savoy, MD, MPH, FAAFP, FABC, CPE, CMQ, FAAPL (she/her) is Senior Vice President of Education, Inclusiveness, and Physician Well-Being for the American Academy of Family Physicians, Associate Professor of Family & Community Medicine and Urban Bioethics & Population Health at the Lewis Katz School of Medicine, and Associate Professor (adj) at the Maurice Kornberg School of Dentistry at Temple University. Dr. Savoy oversees the AAFP education portfolio from medical school through continuing medical education, the accreditation system, journal media and directs the Center for Diversity & Health Equity. She also is the lead for Physician Health First, the AAFP's physician well-being program.

Dr. Savoy graduated from the University of Maryland School of Medicine in 2002, completed Family Medicine Residency Program at the Crozer-Keystone Family Medicine Residency Program (Springfield, PA) in 2005 and graduated from the University of North Carolina Chapel Hill Gillings School of Global Public Health in 2008 with a master's degree in public health leadership with a focus on public health practice. She is certified by the American Board of Family Medicine, the Certifying Commission in Medical Management, the American Board of Medical Quality and is a Fellow of the American Academy of Family Physicians, American Association of Physician Leaders and the Advisory Board Company.

Michael Seserman, MPH

Associate Director, State Partnerships, NY and NJ, *American Cancer Society (ACS)*

Michael Seserman is currently an Associate Director of State Partnerships with the American Cancer Society and co-chair of the NYS HPV Coalition. Since joining ACS in 1999, Michael has focused on policy and system change with large organizations to advance cancer prevention especially in the areas of tobacco control, cancer screening and HPV vaccination. Before that, Michael was a Public Health Prevention Specialist at CDC where he supported the Office on Smoking and Health, the Division of HIV/AIDS, and later, the New York State Department of Health's Bureau of Tobacco Control and the Division of Chronic Disease prevention.

Manika Suryadevara, MD, MPH

Professor of Pediatrics, *SUNY Upstate Medical University*

Manika Suryadevara, MD MPH is a Professor of Pediatrics in the Division of Pediatric Infectious Diseases at SUNY Upstate Medical University in Syracuse, NY. In this role, Dr. Suryadevara cares for children with severe or unusual infections and immunodeficiencies in both the inpatient and outpatient settings. Her academic career focus is on improving vaccine confidence, delivery, and uptake in the community, with a particular focus on improving HPV vaccination rates. She is an active member of the NYS HPV Coalition, where she co-Chairs the Provider Education Sub-committee. She is also the Founder and Co-Chair of the AAP, NY Chapter 1, Section on Infectious Diseases Subcommittee.

Annalea Trask

Program Coordinator, Cancer Prevention in Action,
Office of Community Outreach & Engagement,
Stony Brook Cancer Center

Annalea Trask (she/hers) currently serves as Program Coordinator for the Cancer Prevention in Action (CPiA) grant program at Stony Brook Cancer Center in Stony Brook, NY. HPV vaccination as cancer prevention is central to the mission of CPiA, a NYS Department of Health grant supporting local cancer prevention interventions using a policy, systems, and environmental (PSE) change approach. In this role, Annalea is an active member of the NYS HPV Coalition and has served as co-chair of the Coalition's Collegiate Health Workgroup since 2023, dedicated to increasing HPV vaccination rates for college students across NYS. Prior to joining Stony Brook Cancer Center in 2021, Annalea's tenure in health & human services includes

over a decade in pediatric cancer support programs, health home care management, and health & human services leadership. Annalea's passion for cancer support & prevention began as a teenager, when her sister was diagnosed with Leukemia in 2006 – and was proud to be among the first to be vaccinated against HPV cancers later that year.

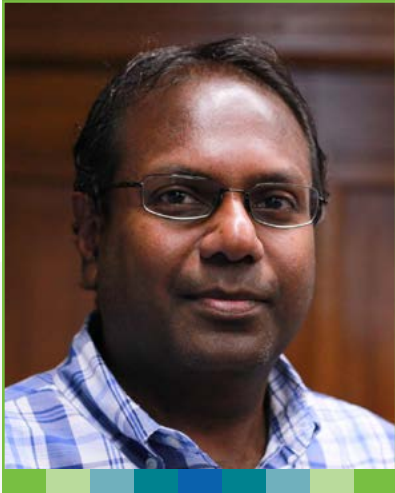

Heather Brandt, PhD

*Director, HPV Cancer Prevention Program,
St. Jude Children's Research Hospital*

Heather M. Brandt, PhD, is director of the HPV Cancer Prevention Program at St. Jude Children's Research Hospital and co-associate director for outreach in the St. Jude Comprehensive Cancer Center. She also serves as a full member in the department of epidemiology and cancer control. She is a faculty affiliate in the University of Memphis School of Public Health and University of South Carolina Arnold School of Public Health. As a social and behavioral scientist, her research interests focus on cancer-related health disparities in cancer prevention and control and specifically on working with allies and partners to effectively use what we know works to increase HPV vaccination.

Friday October 11

Kaja Abbas, PhD

Associate Professor, *London School of Hygiene & Tropical Medicine (UK) and Nagasaki University (Japan)*

Kaja Abbas is an Associate Professor at the London School of Hygiene & Tropical Medicine (UK) and Nagasaki University (Japan). His research area is vaccine impact modelling with a focus on estimating the health, economic, and equity impact of vaccination programmes to support evidence-based decision-making on vaccination strategies in collaboration with partners and stakeholders at the global, regional, and national levels. He has worked on impact assessment of existing and new vaccines to inform vaccine policy in varied contextual settings of low-, middle-, and high-income countries.

As a social and behavioral scientist, her research interests focus on cancer-related health disparities in cancer prevention and control and specifically on working with allies and partners to effectively use what we know works to increase HPV vaccination.

Noel Brewer, PhD

Gillings Distinguished Professor in Public Health, *UNC Gillings School of Global Public Health*

Dr. Noel Brewer is the Gillings Distinguished Professor of Public Health at the University of North Carolina in the Department of Health Behavior at the Gillings School of Global Public Health. Dr. Brewer was the inaugural chair of the National HPV Vaccination Roundtable. Brewer has a PhD in health psychology from Rutgers University and has been recognized as a Fellow of the Association for Psychological Science. His research explores why people engage in vaccination and other health behaviors that prevent cancer. Apart from his academic position, he serves on the Lancet Commission on Vaccine Refusal, Acceptance, and Demand and has advised the WHO and CDC on vaccination. He has also advised the President's Cancer Panel under two presidents and the

National Vaccine Advisory Committee. The Announcement Approach Training, developed by Dr. Brewer and colleagues, teaches health care providers to communicate more effectively about HPV vaccination and other vaccines for adolescents. Over 1,700 providers and clinical staff in 17 states have received the training to date. The National Cancer Institute designated it as a Research-Tested Intervention Program, and the CDC and American Academy of Pediatrics now recommend use of presumptive announcements when recommending HPV vaccine. Free materials are available at hpvIQ.org.

Sara Comstock, MSSW

Program Manager – Global HPV Cancer Prevention, *American Cancer Society*

Sara Comstock is the Program Manager – Global HPV Cancer Prevention for the American Cancer Society. She has worked at the local, state, national and most recently globally, in cancer prevention and screening interventions to address health disparities.

Joel Palefsky, MD, FRCP(c)

Professor, *University of California, San Francisco*

Joel Palefsky, M.D., C.M., F.R.C.P.(C) is Professor of Medicine and Infectious Diseases at the University of California San Francisco School of Medicine. He is an internationally recognized expert on the molecular biology, treatment, pathogenesis, and natural history of anogenital human papillomavirus infections, particularly in the setting of HIV infection. He is the director of the world's first clinic devoted to prevention of anal cancer, the Anal Neoplasia Clinic Research and Education Center at the UCSF Cancer Center. He is the vice-chair of the National Cancer Institute (NCI)-supported AIDS Malignancy Consortium. He is the chair of the Anal Cancer /HSIL Outcomes Research (ANCHOR) Study, a national multi-site NIH study designed to determine whether treatment of anal cancer precursor lesions prevents the development of anal cancer and to identify

biomarkers of progression. He is founder and past president of the International Anal Neoplasia Society and is past president of the International Papillomavirus Society. He is the founder and chairperson of the IPVS International HPV Awareness Campaign.

Sincerest Thank You to YOU, Our National HPV Vaccination Roundtable Supporters, for an Amazing 10 Years

As we celebrate a decade of progress, we sincerely thank you for your dedication to improving HPV vaccination to prevent HPV-related cancers. Your relentless efforts and innovative spirit have profoundly impacted public health, saved lives, and shaped a healthier future. Together, as the HPV Roundtable, we have transformed challenges into opportunities while championing equity and access for all.

Thank you for your commitment, passion, and vision. Our collective work sets the foundation for continued success in the fight against HPV-related cancer. We're privileged to have you on our team for the next 10 years.

Please join us in thanking the passionate professionals who made this week-long event possible.

Cervical Cancer Coalition

About the American Cancer Society National HPV Vaccination Roundtable (ACS HPVRT)

The American Cancer Society National HPV Vaccination Roundtable (ACS HPVRT) was established in 2014, in partnership with the Centers for Disease Control and Prevention. The ACS HPVRT is a national coalition of over 90 member organizations working to raise HPV vaccination rates and prevent HPV cancers in the US. The ACS HPVRT is working to reduce the incidence of and mortality from HPV-associated cancers, through coordinated leadership, strategic planning, and advocacy. They believe that by working together over the long-term, the US can move towards ending vaccine-preventable HPV cancers as a public health problem. The American Cancer Society provides organizational leadership and expert staff support to the ACS HPVRT.

Thank you to our member organizations for partnering to advance HPV vaccination and prevent 6 different types of HPV-related cancers.
